Try these Great New Products Now Available at Spanish Lake

Diamond Loop Knife
This is the newest addition to Diamond’s improved line of hoof knives. Featuring a stainless steel double blade, the Diamond loop knife allows for cleaner, more precise and symmetrical cuts. The Diamond loop knife is made with a hardwood handle, providing a comfortable grip for extended use.

Mustad Equi-Librium Steel and Aluminum Horseshoes
The design of the Equi-Librium horseshoe is the result of an extensive scientific research project at the Utrecht University in the Netherlands. The extra wide toe area is forged with a two-dimensional convex curve; allowing the horse to fluently breakover in any direction required. Special care was taken to ensure the center mass of the shoe matches the Centre of Pressure (CoP) during mid-stance of the horse, thereby creating the perfectly balanced hoof.

- Follows the anatomical foot shape
- Definite left and right shapes
- Section-to-Size: dimensions change according to shoe size
- Upright heels
- All edges are broken or boxed

Vulcan RM Horseshoes
The Vulcan RM shoes have a conventional concave design that incorporates many necessary modern-day features. The Vulcan shoes come in front and hind patterns that help eliminate issues caused by the “one-style-fits-all” shape of many keg shoes on the market today.

- Concave section with deep fullering
- Includes higher inner rim for easier medial/lateral movements
- Versatile nail hole pattern
- Convex radius inner rim for optimal traction and reduced weight
- Seated-out past the toe-quarters to eliminate the chance of sole pressure
- Heels have been pre-boxed (safed)

Werkman Work Horse Shoes
The Werkman Work Horse shoes are available in front and hind patterns with toe clipped front and side clipped hind shoes.

- Sizes available at Spanish Lake: 9, 10 and 12
- Stock sizes: 29mm x 13mm for size 9 and 10, 35mm x 12mm for size 12
We have Liberty Cu Copper Coated Horseshoe Nails with Copper Shield Technology

In addition to all of the same great features of the regular Liberty nail, Liberty Cu horseshoe nails include Copper (Cu) Shield Technology. This technology provides more protection than traditional horseshoe nails. Hoof wall, white line and sole are stronger and healthier when Liberty Cu nails are used on a daily basis. The Copper(Cu) Shield Technology is unique to Kerckhaert and Liberty Cu horseshoe nails.
